MAPLE
SPC FLOORING

Anti-scratch

Antislip and Comfortable

Waterproof and Moisture proof

Six Major Advantages

Eco-friendly and Safety

Fireproof and Flame Retartant

Easy to install and support DIY

▶ SPC FLOOR SPECIFICATIONS

	DETAILS
Size	1220 x 183mm , 1524 x 228mm , 610 x 305mm , 640 x128mm herringbone , customized
Thickness	3.5mm , 4.0mm , 4.5mm , 5.0mm , 5.5mm , 6.0mm , 6.5mm , 7.0mm
Wear Layer	0.1-1.0mm , customized
Color Pattern	Wood Pattern, Stone Pattern, Carpet Pattern
Material	100% virgin PVC and Calcium Carbonate
Layer	UV Coating, Wear Layer, Decor Film, SPC Rigid Core, Back Foam
Density	2.1g/cm^3

▶ SPC FLOOR LAYERING

UV Coating

Waterproof, fireproof, antifouling, antibacterial, antiscratch.

Wear Layer

Antislip and keep the color for a long time and durable.

Decor Film

High simulation of natural patterns to present real feeling of texture.

SPC Lock

Interlock design, glue free, easy DIY installation.

Middle Basic Layer

Calcium and PVC powder are mixed in a certain proportion to form composite material, enhance the pressure resistance capacity.

Bottom Layer

Vibration reduction, noise reduction, moisture resistance and environment performance.
